10 OCT 1963

Mr. Leo Steg  
General Electric Company  
Valley Forge Space Technology  
Center  
P. O. Box 8555  
Philadelphia 1, Pennsylvania

Dear Leo:

Thank you for your good letter of 11 October 1963. I am especially glad to have your encouragement on my seminar idea. I received additional encouragement from Rube Mettler and the STL people. Based on this interest, I am now proceeding to charge Carl Duckett with organizing such a seminar, and either he or I will be in touch with you soon.

I appreciate very much receiving the application form for the American Institute of Aeronautics and Astronautics. I filled out the application form and sent it along to James J. Harford indicating only that I work for the U. S. Government (see attached). I very much appreciate your kind offer of a complimentary copy of the AIAA Journal and should like to express my appreciation to your colleagues on the editorial board. However, if the AIAA should fall on hard times, I should be happy to pay for my own subscription out of the bountiful salaries paid by the U. S. Government.

STATINTL [REDACTED] Incidentally, you will be interested to know that [REDACTED], our answer to problems like [REDACTED], was signed off by the Director today and we are now moving forward quickly to implement his welcome decision. We shall be in touch with you more about this later. STATINTL

Sincerely,

/s/ [REDACTED] STATINTL

Albert D. Wheelon
